INSTITUTIONAL PROFILE

Regional intelligence.
Industrial ambition.

WAZI GROUP LTD

Building enterprise value where it matters most.

An integrated Kenyan holding platform for strategic capital, essential industries and regional market execution.

Wazi Group Ltd brings together multi-sector operational depth, modern technology and institutional governance. We partner with commercial clients, investors and public-sector leaders to structure investments, strengthen food systems, accelerate trade logistics, expand clean power and build sustainable enterprise value across East Africa.

01

Strategic Capital Allocation

Patient balance-sheet capital, rigorous underwriting and long-term asset stewardship across essential sectors.

02

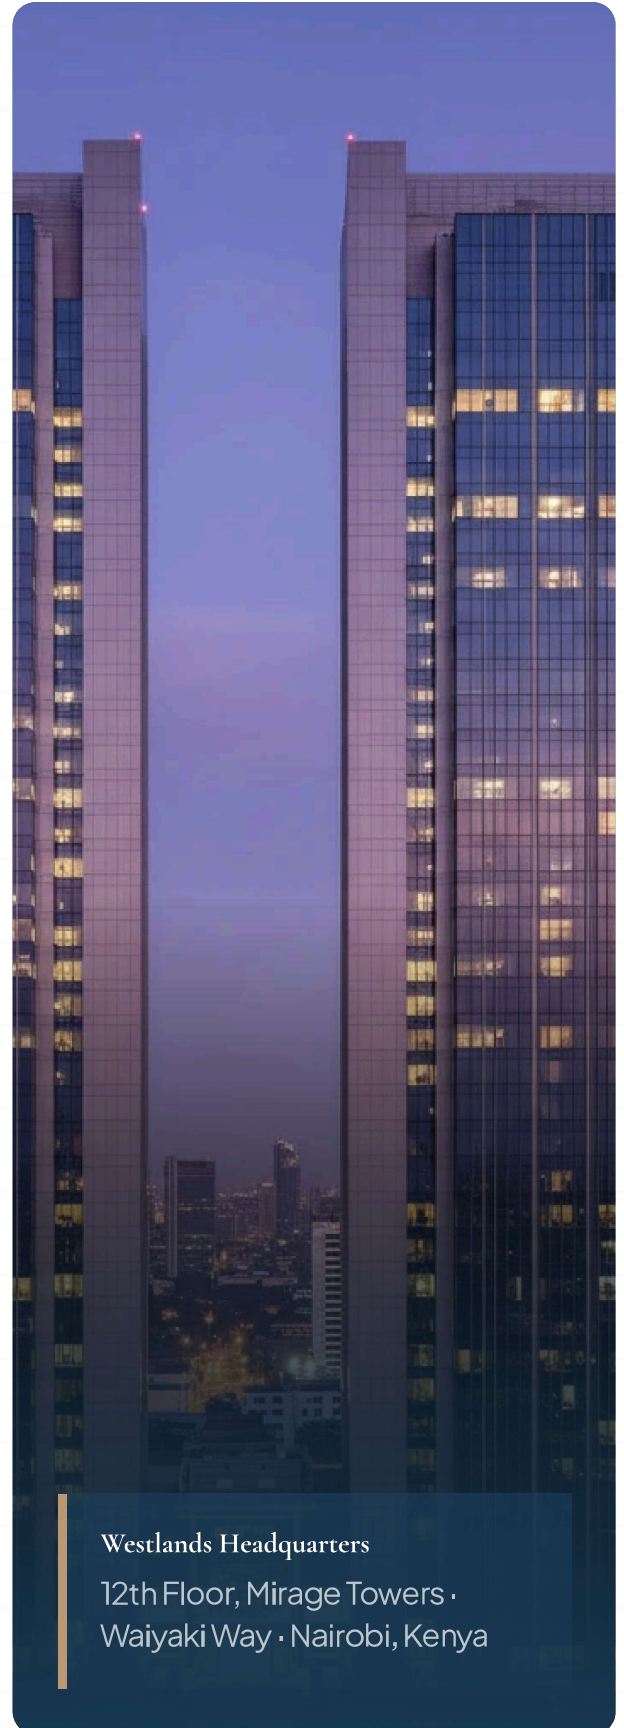

Operational Excellence

Modern agricultural mills, clean energy installations, logistics fleets and digital systems built for delivery.

03

Fiduciary Governance

Uncompromising statutory compliance, NEMA environmental oversight, independent auditing and transparent reporting.

Wazi Group at a glance.

A diversified Kenyan holdings company positioned to connect institutional capital, industrial capability and long-term economic development across East Africa.

8 OPERATING DIVISIONS	Tier-1 CORPORATE GOVERNANCE	100% KENYAN ANCHORED	EAC REGIONAL REACH
---------------------------------	---------------------------------------	--------------------------------	------------------------------

INSTITUTIONAL MANDATE

Build resilient, investable and scalable enterprise systems.

Wazi Group combines deep local market knowledge with corporate governance to advance critical agribusiness, renewable power, mineral exploration, cross-border trade, SME financing and digital infrastructure across the region.

OI

We approach every operating sector through the lens of measurable economic impact, statutory integrity and durable stakeholder value.

Agriculture & Livestock

Commercial farming, pedigree herds and animal feed milling.

Supplies & Procurement

Bulk grain warehousing, fertilizers and institutional supply.

Import & Export

Cross-border commodity sourcing and port freight forwarding.

Renewable Energy

C&I rooftop solar PV, mini-grids and clean power assets.

Mining & Minerals

Geological surveys, rare earth elements and industrial minerals.

Finance & Microfinance

SME working capital, harvest-aligned loans and trade credit.

Technology & Fintech

Mobile payment gateways, cooperative agritech and ERPs.

Partnerships & Advisory

Public-Private Partnerships, JVs and market entry strategy.

Vision, mission & values.

The principles that guide how Wazi Group Ltd invests, operates subsidiaries, safeguards ecosystems and earns institutional trust.

01 / Vision

Generational enterprise.

To be East Africa's most trusted diversified holding company, renowned for transforming essential sectors through innovation, operational discipline and sustainable value creation.

02 / Mission

Capable capital at work.

To build resilient, high-performing businesses that enhance regional food security, expand clean energy access, accelerate trade logistics and create dignified employment.

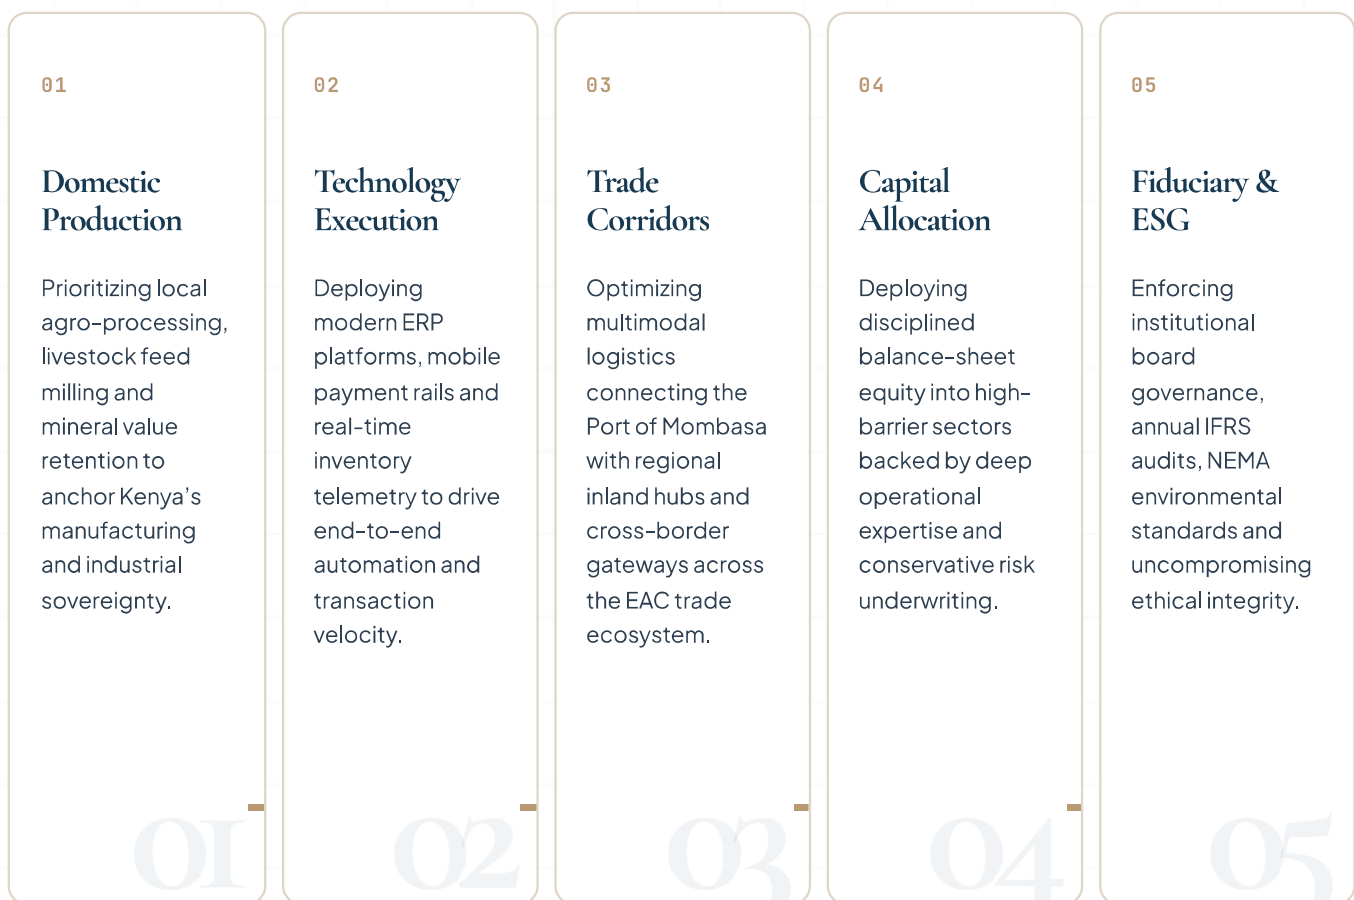

03 / Core Values & Operating Principles

How we conduct business & build trust.

Five strategic pillars. One integrated platform.

Wazi Group's value is created through connected operating disciplines —not isolated units. Each pillar reinforces and strengthens the next.

COLLECTIVE OUTCOME

Resilient enterprises and integrated supply chains positioned for sustainable growth, high productivity and continental trade leadership.

Built through disciplined evolution.

A strategic track record marked by progressive operational scaling, robust sector integration, and continuous expansion across Kenya and the wider East African Community.

FOUNDATION

Establishing High-Conviction Operations

Early establishment of core trading, institutional supply lines, and commercial agricultural initiatives in Kenya.

EXPANSION

Broadening into Strategic Sectors

Expanding operations into clean energy engineering, mineral exploration surveys, and enterprise fintech solutions.

INTEGRATION

Connecting Logistics with Production

Linking bulk grain sourcing with animal feed manufacturing, cold storage, and regional freight transport.

REGIONAL REACH

Expanding Cross-Border Trade Corridors

Scaling transit trade networks across the East African Community and structuring institutional joint ventures.

TODAY

A Modern Diversified Holding Group

Managing 8 integrated divisions under centralized treasury, corporate governance, and ESG leadership at Mirage Towers.

STRATEGIC TRAJECTORY: Every evolutionary stage strengthens Wazi Group's operational capability, capital base, and regional trade integration across East Africa.

A strategic footprint across East & Central Africa.

Nairobi is Wazi Group's primary coordination point for regional mandates, subsidiary management and cross-border opportunity.

Westlands Headquarters

12th Floor, Mirage Towers, Waiyaki Way, Nairobi, Kenya.

CROSS-BORDER MANDATE

Integrated thinking across commercial and institutional corridors.

Wazi Group supports the movement of capital, agricultural goods, clean power technology and expertise across linked East African markets.

PRIMARY HUB

Nairobi

Headquarters, treasury, technology desk and governance coordination.

COASTAL NODE

Mombasa

Port freight forwarding, customs clearance and maritime logistics.

AGRICULTURAL HUB

Rift Valley

Commercial farms, livestock herds, feed milling and grain depots.

TRADE CORRIDORS

EAC Gateway

Cross-border supply networks in Uganda, Tanzania and Rwanda.

The Wazi Group operating model.

We move from market feasibility to designed solutions and accountable execution through an integrated holding framework. By combining localized operational agility with centralized corporate treasury, legal governance, and risk underwriting, we create scalable platforms that compound enterprise value across East Africa.

An integrated capability platform.

Wazi Group creates value by connecting commercial agribusiness, energy engineering, trade logistics, financial credit and digital technology.

CAPABILITY	STRATEGIC VALUE	PRACTICAL APPLICATION	INSTITUTIONAL OUTCOME
Agribusiness & Supplies	Food security & inputs Commercial grain aggregation, computerized milling, hybrid seeds and certified fertilizer distribution.	Commercial off-take supply Guaranteed forward purchase contracts for commercial food processors, millers, wholesalers and supermarkets.	Supply-chain stability Zero quality variance, guaranteed grain tonnage, strict moisture control (<13.5%) and seasonal price predictability.
Energy & Minerals	Clean power & resources Commercial rooftop solar EPC, hybrid micro-grids, battery storage (BESS) and critical mineral exploration.	Industrial modernization Factory PV installations, real-time IoT yield telemetry, geophysical mapping and certified mineral assaying.	Lower operating costs 30–50% industrial tariff reductions, green transition compliance and responsible domestic mineral development.
Trade, Finance & Tech	Commerce & liquidity Cross-border customs freight, bonded warehousing, SME revolving credit, agritech telemetry and payment switches.	Enterprise acceleration Automated B2C/C2B mobile money disbursement, crop input financing, and multi-depot ERP inventory tracking.	Faster trade turnaround Sub-second payment settlement, fast-track credit approval (3–5 days) and frictionless regional transit velocity.

CORE PRINCIPLE

No complex industry succeeds through capital, technology or logistics alone. Sustainable impact comes from aligning all three.

Corporate governance & fiduciary oversight.

Uncompromising standards protecting stakeholder value.

Wazi Group Ltd operates under a stringent corporate governance architecture anchored in the Kenya Companies Act 2015, external IFRS financial auditing and international risk management frameworks.

Our board of directors and executive committees enforce proactive internal audit mechanisms, Know-Your-Customer (KYC) screening and rigorous NEMA environmental compliance across all operating subsidiaries.

- Independent board strategic steering and capital oversight
- Annual external financial audits under IFRS standards
- NEMA Environmental & Social Impact Assessments (ESIA)
- Strict anti-bribery, anti-corruption and AML compliance
- Regulatory licensing compliance (EPRA, Mining Act, KEBS)
- Transparent stakeholder disclosures and statutory filings

Statutory Integrity. Fiduciary Rigor.
Stakeholder Trust.

Governance frameworks that protect mandates, satisfy institutional co-investors and ensure transparent commercial operations.

Private enterprise & joint ventures.

From strategic concept to operational advantage.

Wazi Group collaborates with regional enterprises, multinational investors and development finance institutions seeking an established on-the-ground operating partner in East Africa.

We structure co-investment equity vehicles, manage commercial supply agreements and execute turnkey projects across commercial agriculture, renewable energy, cross-border trade and enterprise technology.

Co-Investment & Equity Structuring

Joint venture structuring, capital deployment and risk-aligned equity vehicles in high-growth sectors.

Operational Project Delivery

Mobilizing technical engineering, logistics fleets and experienced site managers for swift execution.

Market Entry & Regulatory Facilitation

Navigating Kenyan and regional licensing, statutory filings and local stakeholder alignment.

Supply Chain Integration

Connecting corporate partners directly into our regional grain, fertilizer and logistics distribution networks.

EXECUTIVE ENGAGEMENT

Request a confidential executive briefing.

Engage Wazi Group Ltd's executive leadership and sector managing directors for direct discussions on institutional co-investment, commercial bulk commodity supply, clean energy EPC projects, cross-border trade facilitation, mineral exploration partnerships or strategic joint venture structuring across East Africa.

01

Define the mandate

Share your commercial proposal, required off-take volumes, project technical scope or target investment timeframe.

02

Align sector expertise

We convene the relevant division managing directors, technical engineers and legal counsel at our Westlands headquarters.

03

Establish execution pathway

Receive a fully structured proposal detailing commercial terms, SLAs, compliance matrices and operational rollout milestones.

12TH FLOOR, MIRAGE TOWERS
WESTLANDS • NAIROBI • KENYA

Commercial farming and livestock excellence.

Wazi Group's agriculture and livestock division drives commercial crop cultivation, pedigree livestock breeding, and automated animal feed manufacturing. We integrate mechanized land preparation, certified hybrid seed inputs, precision drip irrigation, and strict veterinary biosecurity to transform regional food security and deliver dependable supply chains across East Africa.

01**Commercial Crops**

Large-scale mechanized cultivation of white maize, yellow milling maize, soya, canola and protein-rich legumes under strict agronomic protocols.

02**Pedigree Livestock**

High-yield Holstein-Friesian dairy herds, purebred Boer & Galla meat goats, commercial piggery and disease-resistant Kuroiler poultry.

03**Feed Manufacturing**

Automated computerized milling plant formulating KEBS-certified, nutritionally balanced feeds and specialized mash/pellets for commercial farmers.

COMMERCIAL AGRICULTURE • DAIRY CATTLE • BOER GOATS • PIGGERY • POULTRY • ANIMAL FEED MILL

Certified quality. High-yield agricultural production.

CORE CAPABILITIES

Integrated farm-to-feed operations.

- **Crop Production:** Certified non-GMO hybrid maize, soya and fodder cultivation.
- **Dairy Excellence:** Pedigree zero-grazing dairy herds with automated milking parlors.
- **Meat Livestock:** Purebred Boer and Galla meat goat breeding and carcass optimization.
- **Piggery & Poultry:** Biosecure commercial piggery units and Kuroiler dual-purpose flocks.
- **Feed Manufacturing:** Computerized batch mixing, micro-dosing and high-density pelleting.

EXECUTION MANDATE

Biosecurity, veterinary audits & KEBS nutritional balancing.

SELECTED IMPACT FRAMEWORK

Commercial scale for food processors.

We partner with food processors, dairy cooperatives, supermarket chains and commercial farmers to provide guaranteed forward contracts, cold-chain milk tankers and dependable bulk feed deliveries.

FOCUS

High-Yield Feeds

FOCUS

Bulk Raw Milk

FOCUS

Pedigree Herds

ENGAGE

Agriculture Desk

Institutional commodity sourcing and bulk supply.

Wazi Group's Supplies & Procurement division is an institutional powerhouse managing nationwide grain aggregation, certified agricultural fertilizer distribution, commercial feed raw materials, and high-volume commodity fulfillment. We partner with commercial millers, government agencies, relief organizations, and agro-dealers to ensure uninterrupted supply chains, guaranteed grade quality, and timely nationwide delivery across East Africa.

01 / ORIGINATE

Grain Aggregation

Cleaned, sorted Grade 1 & 2 dry white maize, yellow maize, and pulses with certified moisture (<13.5%) and aflatoxin control.

02 / INPUTS

Certified Fertilizers

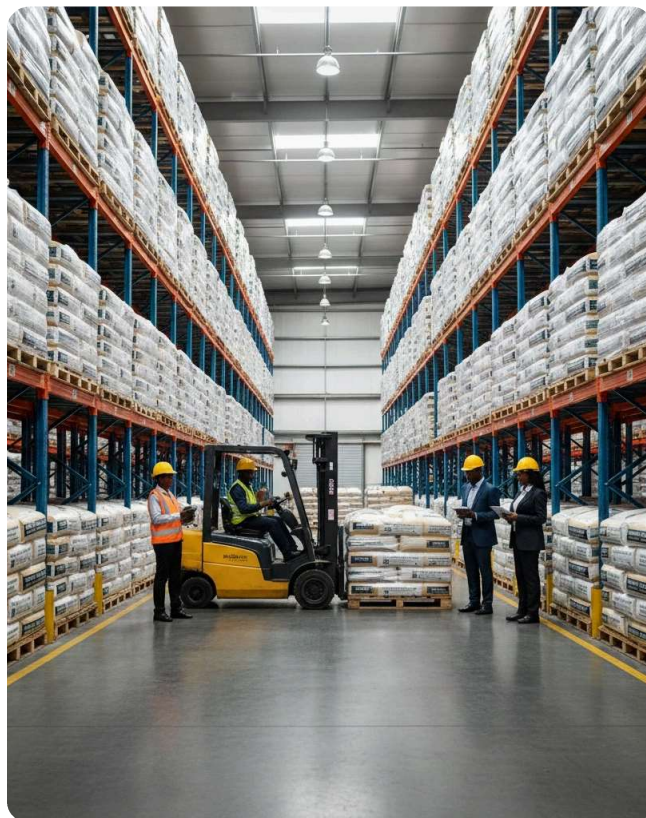

Direct wholesale distribution of KEBS-certified planting and topdressing fertilizers including DAP, NPK 17:17:17, CAN, and Urea.

03 / DELIVER

Logistics Fleet

Dedicated modern fleet of 30-ton semi-trailers providing direct on-site factory and warehouse haulage across the country.

Dependable bulk supply for institutions and millers.

CORE CAPABILITIES

Bulk procurement at institutional scale.

- Grade 1 & Grade 2 dry white maize supply
- High-grade DAP, NPK, CAN and Urea fertilizers
- Feed mill raw materials (Yellow maize, soya meal)
- Public tender and institutional food procurement

QUALITY GUARANTEE

Aflatoxin testing (<10 ppb) and moisture control (<13.5%).

OPERATING STANDARD

Zero quality variance and reliable off-take.

Our strategically located dry warehousing hubs and modern aeration facilities preserve crop quality and guarantee uninterrupted inventory throughout peak seasonal demand cycles.

PRIORITY

Moisture <13.5%

PRIORITY

100+ MT Batches

PRIORITY

Direct Haulage

ENGAGE

Supplies Desk

OPERATING DIVISION 03 • IMPORT
& EXPORT

Cross-border commodity trade and freight logistics.

Wazi Group's Import & Export division connects East African commercial markets with global trade routes, providing seamless multimodal freight forwarding, expedited customs brokerage, bonded warehousing, and structured commodity trade execution across Kenya, Uganda, Tanzania, Rwanda, and overseas destinations.

01

Agricultural Commodity Exports

Direct export facilitation of premium East African tea, specialty Arabica coffee, macadamia nuts, avocados, and export-grade pulses.

02

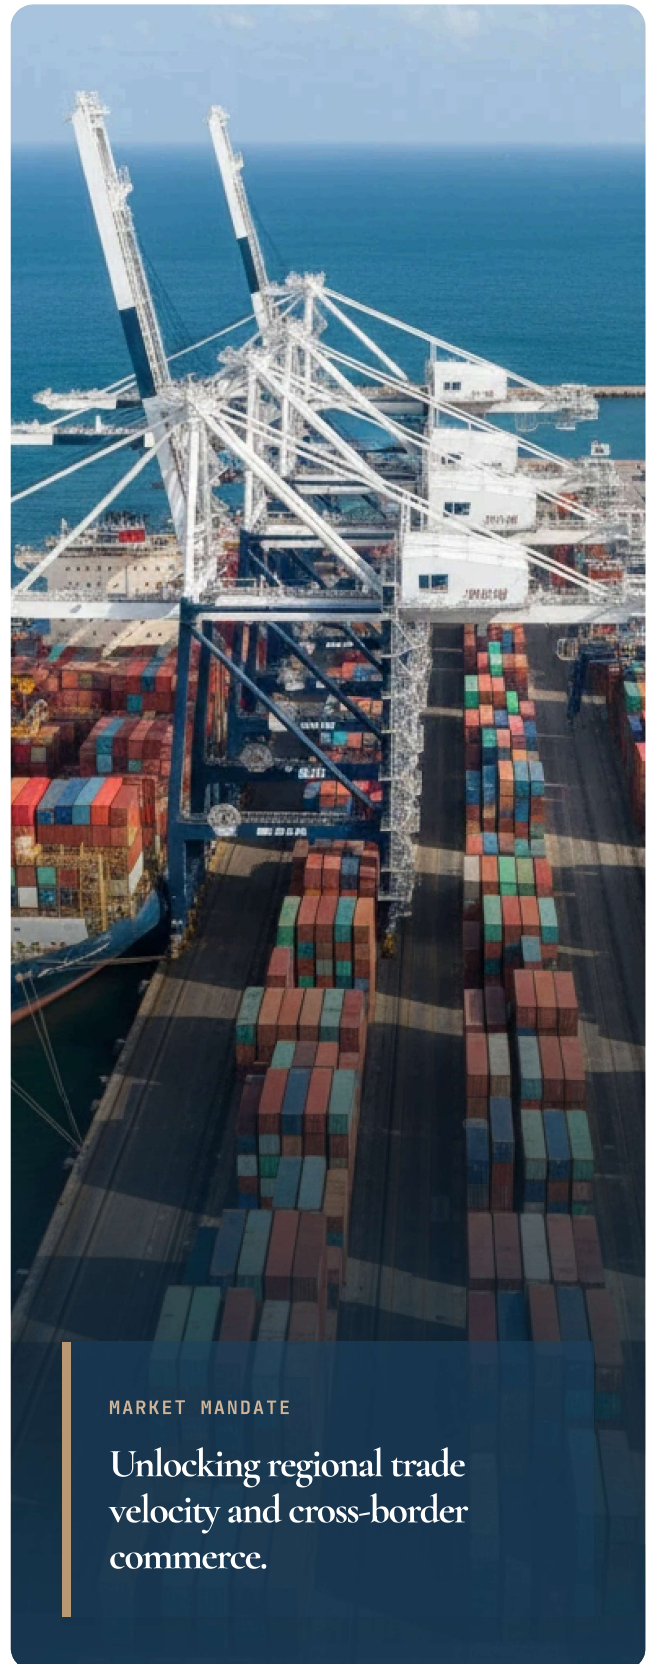

Industrial & Equipment Imports

Global procurement and delivery of certified heavy machinery, Tier-1 solar PV hardware, industrial chemicals, and manufacturing inputs.

03

Bonded Transit & Freight Forwarding

Integrated multimodal logistics combining Port of Mombasa customs clearance, SGR rail freight, and bonded trucking to regional inland destinations.

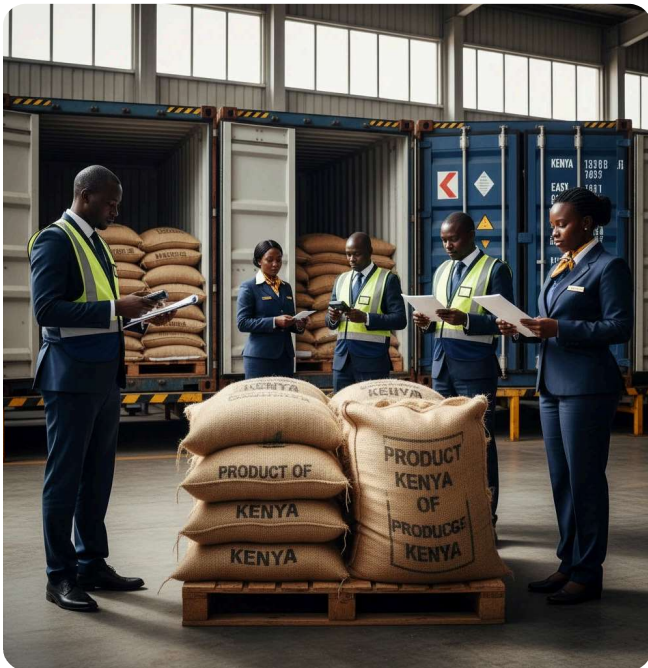

MARKET MANDATE

Unlocking regional trade
velocity and cross-border
commerce.

Seamless execution from port origin to destination.

From primary maritime discharge at the Port of Mombasa to bonded inland transit across the East African Community, Wazi Group ensures rapid cargo handling, statutory compliance, and end-to-end supply chain reliability.

CORE CAPABILITIES

Regional trade infrastructure built for speed.

We navigate complex customs frameworks, manage bonded warehousing and ensure rapid container clearance through direct integration with KRA Customs systems and EAC single-window digital platforms.

TRADE FOCUS

Mombasa port clearance • multimodal transit • EAC corridors • AfCFTA protocols

OPERATIONAL STANDARDS

100% customs compliance & zero demurrage.

Our trade desk ensures all shipments comply with international Incoterms (CIF, FOB, DDP), structured trade finance instruments, pre-shipment verifications and statutory phytosanitary inspections.

Strategic Trade Desk

Engage Wazi Group for cross-border freight forwarding, bulk commodity trade or import/export facilitation.

OPERATING DIVISION 04 •
RENEWABLE ENERGY

Clean power systems for commercial & industrial growth.

Wazi Group's Renewable Energy division delivers turnkey engineering, procurement and construction (EPC) for commercial rooftop solar, rural mini-grids and decentralized clean power across Kenya.

01 / C&I SOLAR

Commercial Solar PV

High-efficiency rooftop and ground arrays reducing factory bills by 30–50%.

02 / OFF-GRID

Hybrid Mini-Grids

Standalone solar PV and battery storage powering rural agribusinesses.

03 / FEASIBILITY

Small Hydro & Wind

Technical assessments, hydrological modeling and clean site development.

MARKET MANDATE

Clean, reliable energy powering
East Africa's industrialization.

Engineering resilience across commercial clean power systems.

CORE CAPABILITIES

Turnkey solar EPC engineering.

- Rooftop & ground-mount C&I solar PV
- Hybrid battery storage systems (BESS)
- Inverter telemetry & IoT yield monitoring

CAPABILITY FOCUS

C&I solar, mini-grids & telemetry.

OPERATING STANDARDS

Tier-1 components & EPRA compliance.

We deploy high-efficiency monocrystalline solar modules with 25-year performance warranties, adhering strictly to EPRA grid-code standards and anti-islanding protection.

EXECUTION PRIORITY

EPRA certified & 25-yr warranties.

IMPACT LENS

Substantial operating cost reductions.

Solar installations deliver rapid 3-to-4-year financial payback, shielding industrial operators from escalating grid tariffs while eliminating carbon emissions.

PERFORMANCE METRIC

30-50% industrial power savings.

STRATEGIC BRIEFING

Bring your clean power project into focus.

Engage Wazi Group's licensed solar engineers for commercial energy audits, solar project financing, rooftop feasibility or rural mini-grid development.

Responsible mineral exploration and critical resources.

Wazi Group's Mining & Minerals division conducts advanced geological surveys, mineral asset evaluations, and responsible resource development across high-potential concessions in Kenya and East Africa. Operating in strict compliance with the Kenya Mining Act 2016 and NEMA environmental standards, we pair scientific exploration with sustainable community engagement to extract critical raw materials that fuel industrial development.

01

Critical Minerals

Prospecting strategic rare earths, niobium, tantalum, and lithium vital for the global clean-tech transition and energy storage.

02

Industrial Minerals

Evaluating high-purity limestone, gypsum, silica sand, and feldspar deposits for cement, construction, and manufacturing industries.

03

Geological Surveys

Precision geochemical sampling, airborne geophysical prospecting, core drilling, and certified laboratory assaying led by geoscientists.

Geological rigor and environmental stewardship.

CORE CAPABILITIES

Scientific exploration & asset mapping.

- Mineral concession evaluation & prospecting
- Geochemical soil sampling & core drilling
- Industrial mineral resource characterization
- Mining Act 2016 licensing & statutory compliance

TECHNICAL FOCUS

Exploration rigor, certified geologists & laboratory assaying.

IMPACT LENS

Responsible mining & community empowerment.

Mining operations require absolute ecological responsibility. We enforce baseline environmental audits, progressive land rehabilitation, statutory royalties and local community development funds.

FOCUS

NEMA Audits

FOCUS

Mining Act 2016

FOCUS

Local Royalties

ENGAGE

Mining Desk

Inclusive credit and working capital for enterprise growth.

Wazi Group's finance division delivers accessible SME working capital, structured trade financing, and agricultural cash-flow credit to high-potential enterprises driving East Africa's commercial economy. We bridge critical liquidity gaps, fund seasonal harvest cycles, and provide fast-track asset financing with transparent terms, enabling local businesses to scale operations, fulfill large off-take contracts, and create durable economic value.

STRATEGIC MANDATE

Tailored financing facilities engineered to bridge liquidity gaps, expand seasonal inventory and accelerate enterprise growth.

01

SME Working Capital Loans

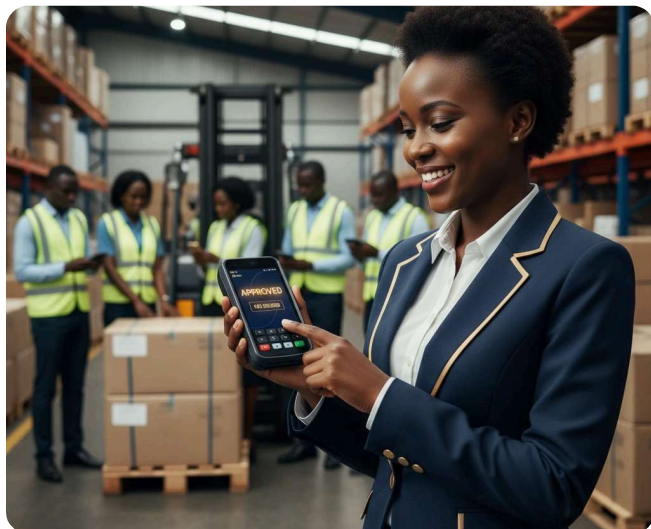

02

Harvest-Aligned Agri-Credit

03

Structured Trade Finance

Transparent credit solutions tailored for African enterprises.

CORE CAPABILITIES

Credit solutions that match cash flows.

- SME revolving working capital loans
- Agricultural input & off-take credit
- Structured inventory & trade finance facilities
- Fast-track credit assessment (3–5 days)

CAPABILITY SCOPE

Working capital, agri-credit & trade finance.

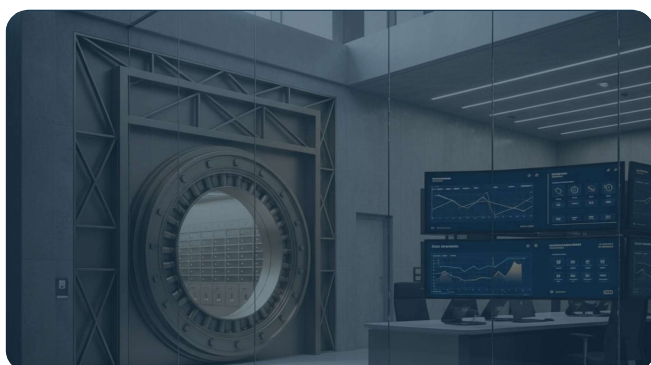

IMPACT LENS

Fueling grassroots commercial enterprise.

Our underwriting pairs transparent fee structures with harvest and trade delivery cycles, ensuring growing businesses access capital without predatory terms or hidden compounding fees.

IMPACT FOCUS

Transparent terms, no hidden fees & fast review.

STRATEGIC BRIEFING

Discuss enterprise credit facilities.

Engage Wazi Group's corporate finance desk for SME loan syndication, agricultural value chain financing or structured trade credit lines.

OPERATING DIVISION 07 •
TECHNOLOGY & FINTECH

Digital infrastructure for enterprise and financial commerce.

Wazi Group's technology division engineers mission-critical fintech payment gateways, agritech telemetry platforms and enterprise supply chain software designed to scale digital commerce across East Africa.

01 / FINTECH

Mobile Payment Rails

B2C/C2B M-Pesa API switches and instant automated vendor disbursement.

02 / AGRITECH

Agritech Platforms

Cooperative milk & grain intake telemetry, digital weighbridges and SMS alerts.

03 / ERP

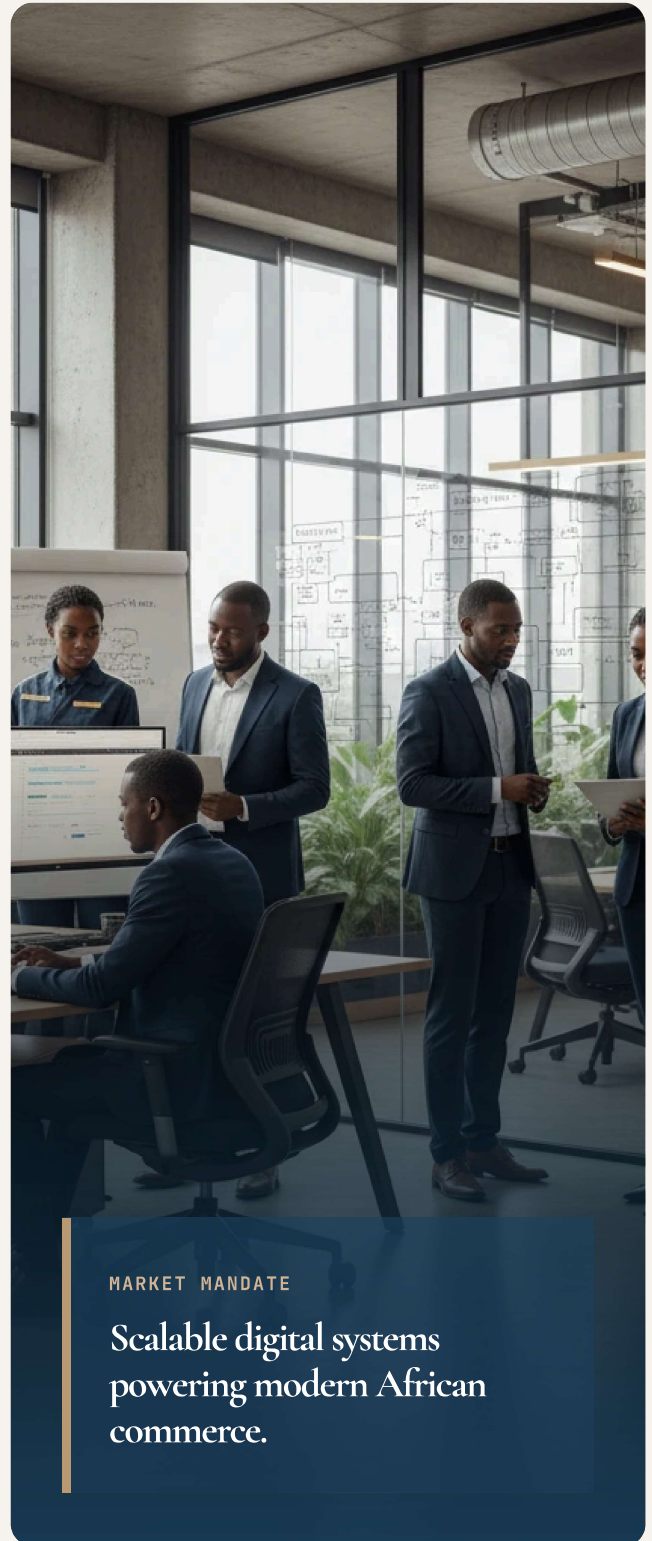

Supply Chain ERP

Multi-depot warehouse barcode tracking, live inventory counts and audit trails.

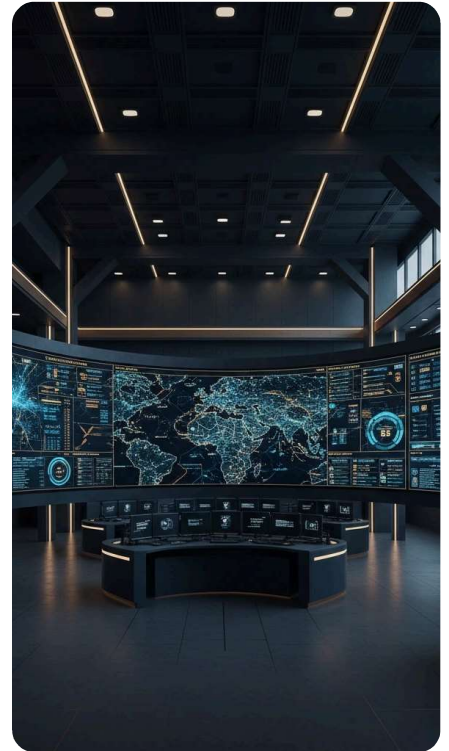

04 / COMPLIANCE

KDPA Data Privacy

Zero-trust architecture, end-to-end encryption and full statutory compliance.

Fault-tolerant software tailored for regional commerce.

CORE CAPABILITIES

API-first digital systems.

- Automated B2C/C2B mobile money disbursement
- Agritech cooperative telemetry & SMS alerts
- Warehouse barcode tracking & ERP systems
- Offline-ready Android field applications

CAPABILITY FOCUS

Fintech rails, telemetry & ERP systems.

OPERATING STANDARDS

Zero-trust data security.

Containerized microservices, TLS 1.3 encryption and strict adherence to the Kenya Data Protection Act 2019 ensure 99.9% platform availability and complete data privacy.

OPERATING STANDARD

KDPA 2019 & 99.9% platform SLA.

IMPACT LENS

High-speed commercial execution.

Sub-second payment latency and automated reconciliation eliminate manual processing friction for thousands of farmers and commercial traders across East Africa.

OUTCOME MANDATE

Sub-second latency & instant payouts.

STRATEGIC BRIEFING

Deploy enterprise-grade software.

Engage Wazi Group's software engineering team to discuss custom fintech integration, agritech mobile platforms, API gateways or enterprise ERP architecture.

OPERATING DIVISION 08 •
PARTNERSHIPS & ADVISORY

Public-Private Partnerships, joint ventures & market advisory.

Wazi Group's Partnerships & Advisory division structures transformative Public-Private Partnerships (PPP), commercial joint ventures, and strategic market entry strategies across Kenya and the East African Community. We bridge institutional capital with high-impact domestic operating assets, providing full transaction advisory, fiduciary governance, and on-the-ground project execution to deliver sustainable stakeholder value.

01 **Public-Private Partnerships (PPP)**

Collaborating with national and county governments on agricultural aggregation hubs, clean energy mini-grids, and trade infrastructure.

02 **Commercial Joint Ventures**

Structuring co-investment equity vehicles, consortiums, and technology-sharing arrangements with established regional operators.

03 **Regional Market Entry Strategy**

Comprehensive feasibility studies, regulatory licensing, local counterparty vetting, and risk-aligned operational setup in East Africa.

MARKET MANDATE

**Connecting international
capital with high-impact East
African assets.**

Proven transaction structuring and operational execution.

CORE CAPABILITIES

Strategic execution across 8 sectors.

- PPP concession structuring & negotiation
- Cross-border JV shareholder agreements
- Regulatory licensing & statutory due diligence
- Operational mobilization & governance setup

CAPABILITY SCOPE

PPP concessions, JVs & market entry.

OPERATING STANDARDS

Uncompromising legal & tax rigor.

We collaborate with premier Kenyan legal counsels and corporate tax advisors, ensuring all partnership structures satisfy statutory mandates, transparent governance and risk allocations.

OPERATING MANDATE

Fiduciary transparency & statutory integrity.

IMPACT LENS

By pairing international capital with deep local operating capacity, Wazi Group accelerates project delivery while de-risking investments in infrastructure, energy and agribusiness.

Catalyzing large-scale development.

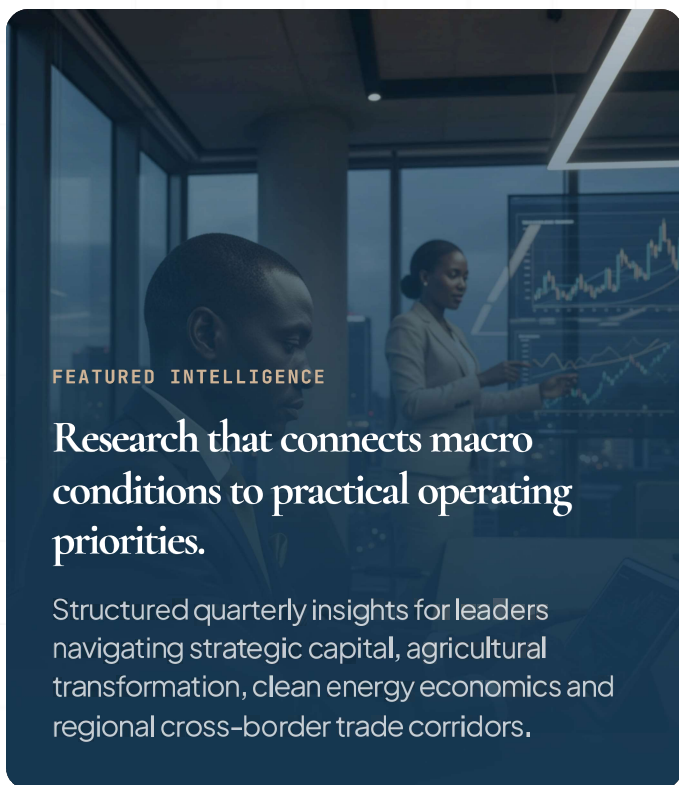

STRATEGIC BRIEFING

Discuss a partnership or joint venture.

Engage Wazi Group's transaction desk at Mirage Towers for confidential advisory on PPP frameworks, market entry or equity co-investments.

Frontier intelligence for consequential decisions.

Wazi Group develops sector perspectives, market intelligence and economic analysis that help institutions and enterprises interpret East African market dynamics with confidence.

FEATURED INTELLIGENCE

Research that connects macro conditions to practical operating priorities.

Structured quarterly insights for leaders navigating strategic capital, agricultural transformation, clean energy economics and regional cross-border trade corridors.

THE INTELLIGENCE MANDATE

Convert complexity into clearer strategic choices.

Our publications explore key drivers influencing trade flows, commodity prices, solar power ROI and mineral development across Kenya and the wider East African Community.

MARKET REPORTS • WHITEPAPERS • SECTOR BRIEFINGS • INSTITUTIONAL PERSPECTIVES

CLEAN ENERGY

Commercial solar power economics.

Financial analysis on C&I rooftop solar PV payback and grid-tariff mitigation for manufacturers.

REGIONAL TRADE

AfCFTA & cross-border trade dynamics.

Evaluating customs single-windows, transit corridors and freight velocity between East African nations.

NATURAL RESOURCES

Responsible mining in the green transition.

Prospecting critical elements and rare earths under Kenya's Mining Act 2016 environmental framework.

INSTITUTIONAL TRUST & STRATEGIC PARTNERSHIPS

Selected credentials and relationships.

Wazi Group Ltd engages with commercial enterprises, state corporations, development agencies and financial institutions across integrated sectors. The selected marks below represent the approved client and relationship archive.

Production control: retain only logos for which Wazi Group Ltd has explicit current permission to publish in this corporate profile and PDF distribution.

01 • TRUST

Institutional confidence.

Relationships built on transparency, statutory compliance and accountable conduct.

02 • CAPABILITY

Sector-connected expertise.

Operating solutions grounded in practical delivery, infrastructure and logistics.

03 • CONTINUITY

Long-term value focus.

Engagements structured around enduring resilience, food security and clean power.

INSTITUTIONAL TRUST & STRATEGIC PARTNERSHIPS • CONTINUED

Enterprise relationships & partner ecosystem.

A continued portfolio of accredited institutional, commercial, and financial relationships supporting Wazi Group's cross-sector operations, trade corridors, clean energy projects, and agricultural value chains.

Approved Marks: Verified corporate client off-takers, financial institutions, and statutory co-development partners across East Africa.

01 • INTEGRITY

Statutory alignment.

Adherence to institutional procurement benchmarks, transparent audits and regulatory governance.

02 • RELIABILITY

Operational delivery.

Consistent volume fulfillment, SLA execution and supply chain certainty across all 8 divisions.

03 • IMPACT

Sustainable growth.

Long-term collaborative partnerships driving mutual commercial value and economic transformation.

STRATEGIC ENGAGEMENT

Begin the conversation that moves your mandate forward.

Wazi Group Ltd welcomes confidential strategic discussions with institutions, enterprises, investors and public-sector leaders navigating high-priority growth, food security, energy, trade or operating decisions.

Whether structuring high-volume commodity supply, deploying commercial clean energy systems, expanding cross-border logistics, or co-investing in private enterprise joint ventures, our executive team provides direct, decisive institutional engagement.
